

Why join Resolution?

Find out why we're the biggest community of family justice professionals, and what you'll gain by joining us.

What makes Resolution different?

Resolution members span the full spectrum of family justice. We welcome anyone working with separating couples who supports our Code of Practice.

Our **Code of Practice** promotes a constructive approach to resolving family matters. We provide the training and resources to help members embed its principles into their everyday work. Clients and fellow professionals recognise the difference this makes.

At-a-glance

- Resolution members stand out by showing commitment to our Code of Practice.
- Training and resources like our Good Practice Guides help members put our Code into practice.
- Free resources help clients see the benefits of working with Resolution members.

"It is now impossible to contemplate the practice of Family Law without the all-embracing positive contribution that Resolution makes to our collective and individual practice."

- Join like-minded members campaigning to change the face of family justice, which helped make no fault divorce a reality in 2022.

"I moved to Leicester not having lived or practised locally. I joined our regional group as a committee member. It helped me make contact with local practitioners, many of whom have become close friends. I also forged a closer link with our local Judges."
